Transfer Guide

B.S. in Management

The College of Business offers a contemporary business program in **Management**. We combine academic rigor in the field of business and commerce, with external projects, internships, and other experiential activities, which enable our students to apply classroom theory to real-life business situations. CSU's College of Business is accredited by the Accreditation Council for Business Schools and Programs.

Mission

The mission of the College of Business is to promote quality business education that is learner-centered and technologically responsive to a culturally and economically diverse student population. Through its programs, the College is committed to developing students by:

- Providing foundations in business for students who have the ability to, and desire to, learn.
- Producing graduates who are responsible, discerning, ethical, and informed citizens with a commitment to lifelong learning, business leadership, entrepreneurship, service, and being a change agent locally and globally.
- Fostering a collegial environment that values the personal growth and academic success of individuals through its teaching, research, service, and entrepreneurial initiatives.
- Supporting other university academic programs by collaboration and providing business instruction to enrich their curricula.

Vision

Our vision is to be an outstanding and transformational learning center committed to the development of a culturally and economically diverse student population that prepares students to change lives by leading in their respective disciplines and communities.

Highlights

The College of Business offers a Bachelor of Science degree in Business and Administration, with a concentration in Management. This program provides students with an opportunity to acquire skills and knowledge necessary for managing groups and organizations in increasingly competitive environments. Emphasis is given to the development of skills in planning, organizing, leading, and controlling various business units and activities. Graduates typically enter an organization in various capacities and eventually move up to middle and top management positions of increasing responsibility. Some of the industries that typically hire graduates with a concentration in management include: retail and wholesale trade businesses, construction and manufacturing industries; transportation, communications, and utilities firms; and state, local, and federal governmental units.
