The words selected are ‘internationally equivalency or regionally accredited’ for admissions into the program for this purpose. Also, increasing field service to 180 hours for thesis students and increasing the requirements for students without background in Public Health were also proposed. These changes would be all effective staring for the spring of 2014. Dr. Block made the motion and it was seconded. The motion was passed with no opposition or abstentions.

3.0 UGC subcommittees – UGC subcommittees, both standing and ad hoc were discussed. An ad hoc subcommittee to address the electronic thesis/dissertation submission process will be formed. Drs Alghoul, Gahungu, Kuzdale, Ayyash, Salahudin, Wolf and Chen and Ms. Ford and Porter volunteered to serve on the committee. An ad hoc committee on the automated curriculum approval process (see below) and standing graduate catalog and bylaws committees will be formed. An email will be sent requesting volunteers for these three subcommittees.

4.0 Automated Curriculum Approval Process – Pilot Project – Dr. Carney described the Ellucien/Banner Workflow software module that was recently installed at CSU. This addition to Banner can be used to develop an automated curriculum approval process, similar to CSUBuy. Dr. Valenciano spearheaded the process last year and IT is interested in working with UGC to pilot the process to serve as a model for other CSU processes.
